

THE HUMAN+ FRAMEWORK™

Human Capability for an AI-Enabled Workplace | The Intuitus Hub™

Artificial intelligence is transforming the workplace—but technology alone does not transform organizations, people do. The HUMAN+ Framework™ is a research-informed model that helps organizations strengthen the six human capabilities that drive performance, adaptability, and sustainable growth in an AI-enabled world.

THE SIX HUMAN+ PILLARS

H Human Awareness

Self-awareness, emotional regulation, and intentional impact.

M Mindset for Adaptability

Embracing change and thriving amid uncertainty.

N Navigating Transformation

Leading and adapting through change to drive impact.

U Understanding Others

Empathy, perspective-taking, and meaningful relationships.

A AI Partnership

Collaborating responsibly with AI to amplify judgment and results.

+ Human Flourishing

Well-being, purpose, engagement, and meaningful work.

APPLIES ACROSS: Leadership Development • Human-AI Readiness • Customer Experience • Learning & Development • Employee Experience • Organizational Transformation
